AGRICULTURAL STATISTICS AND PRICES FOR LOUISIANA, 1978-1983

by
Lonnie L. Fielder, Jr. and Bergen A. Nelson[1/]

This publication presents statistical data for Louisiana's agriculture for the period 1978-1983. Seven types of data are presented. Annual data for the state are presented for income and expenses in the first part (Table 1 through 4). In the second part census data are presented on farm numbers, size, and land use (Table 5). In the third part (Tables 6 through 28) annual data are presented for the state for acreage, yield, production, disposition, price and value of crops. In the fourth part (Tables 29 through 56) annual and monthly data are presented for livestock numbers, and production, disposition, price, and value of livestock and livestock products. Data on acreage, yield, and production of crops, by parishes, are presented in the fifth part (Tables 57 through 63). Annual price indexes and monthly and annual prices received and paid by U. S. farmers are presented in the sixth part (Tables 64 through 71). Cattle numbers, by parishes, are presented in the seventh part (Tables 72 and 73).

Data for years prior to 1978 are presented in three previous publications[2/] and are available upon requrest to the Department of Agricultural Economics and Agribusiness, Louisiana State University, Baton Rouge, Louisiana, 70803.

The complications in this report were made from two sources: (1) Releases by the Louisiana Crop and Livestock Reporting Service and (2) Agricultual Reports of the Census, United States Department of Commerce.

[1/] Dr. Fielder is a professor in the Department of Agricultural Economics and Agribusiness, Louisiana State University. Mr. Nelson is the Agricultural Statistician in charge, Louisiana Field Operations Office, Statistical Reporting Service, United States Department of Agriculture, Alexandria, Louisiana.

[2/] Fielder, Lonnie L., Jr., Clarence O. Parker, and J. B. Penn, Agricultural Statistics for Louisiana, 1909-1968, D.A.E. No. 397, June 1969, Fielder, Lonnie L., Jr. and Bergen A. Nelson, Agricultural Statistics and Prices for Louisiana, 1924-1981, D.A.E. Report No. 600, Louisiana Agricultural Experiment Station, July 1982; Fielder, Lonnie L., Jr. and Bergen A. Nelson, Agricultural Statistics for Louisiana, 1976-1982, D.A.E. Report No. 618, July 1983.

Table 1. Realized Gross Income and Net Income from Farming, 1978-1982[1/]

Year	Gross Farm Income					Farm production expenses	Net farm income before inventory adjustment[2/]	Net change in farm inventories	Net farm income after inventory adjustment[2/]

1/ Includes bulbs, plants, and trees.

2/ Repairs and maintenance of buildings, repairs and operations of motor vehicles and other machinery and petroleum fuel and oil used in the farm business.

3/ Include binding, cotton ginning, Federal crop insurance, containers, dairy supplies, electricity, greenhouse and nursery, grazing fees, harness & saddlery, net insurance premiums (fire, wind, and crop hail), irrigation, livestock marketing service (excl. feed and transportation), milk hauling, miscellaneous hardware (incl. black smithing), machine hire and custom work, miscellaneous livestock and poultry supplies, pesticides, small hand tools, short term interest, telephone (business share), vet. services and medicines (plus insem.) and other miscellaneous.

4/ Includes cash wages, prerequisites, and (1951 to date) Social Security taxes paid by employers.

5/ Includes depreciation and accidental damage to farm buildings and depreciation of motor vehicles and other farm machinery and equipment.

THE DEPARTMENT OF AGRICULTURAL ECONOMICS AND AGRIBUSINESS
LOUISIANA STATE UNIVERSITY

The Department of Agricultural Economics and Agribusiness at Louisiana State University carries on an extensive and coordinated program of teaching, organized research and public service in a wide variety of professional subject matter areas.

Subject matter areas include:

- Agricultural business management
- Farm organization and management
- Statistical analysis of agricultural data
- Resource, rural and community development
- Environmental economics and ecology
- Marketing - (general and commodity)
- Agricultural policy and public programs
- Land and water economics
- Applied computer programming
- Cooperatives
- Price analysis
- Tropical resource development
- Farm records and accounts
- Agricultural credit and finance

The department's research in these areas is part of the organized research program of the Louisiana Agricultural Experiment Station, a division of the University's Center for Agricultural Sciences and Rural Development. Much of the research is in cooperation with other departments in the College of Agriculture, the Louisiana Cooperative Extension Service, state experiment stations, the USDA, and other State and Federal agencies.

The combination of teaching, organized research and service provides an efficient, effective and productive use of resources invested in higher education and service to the public. Emphasis in research is on solving practical problems important to various segments of the economy. Research results are made available for immediate use in the classroom and to action agencies for direct application to problems in the field. The Louisiana Cooperative Extension Service and other educational and action agencies, including the Department of Vocational Agricultural Education, the Farmers Home Administration, the Soil Conservation Service, the Federal Farm Credit System, other government agencies, farm organizations, business and industrial firms, as well as individuals, receive and use the Experiment Station's research results in the economics of land use, farm credit, resource, community and rural development, agricultural production and marketing, agribusiness, cooperatives, and public policy.

The department's coordinated teaching, research and service program provides professional training for careers in a wide variety of occupations in education, agribusiness, industry and government service. Departmental course work is supplemented by courses in other disciplines, particularly in the College of Agriculture and the College of Business Administration. Academic programs lead to degrees at three levels: Bachelor of Science, Master of Science, and Doctor of Philosophy. Course work in all curricula provides knowledge of tools and techniques useful for decision making. Emphasis in the undergraduate program centers on developing the student's managerial ability. The graduate program builds on the undergraduate background, strengthening basic knowledge and adding more sophisticated analytical skills and business capabilities.
